LOCATION AND 3D CONTEXT

FormIt: Setting the Location: https://autode.sk/3frIrnZ (Autodesk.com)

FormIt + InfraWorks: https://autode.sk/2Wq59rw (YouTube)

Country Kits for InfraWorks: https://autode.sk/2OmnbnQ (Autodesk Knowledge Network)

Country Kits for Austria, Germany, Norway, Sweden, France, and the UK (English) are available to install through the Autodesk Desktop App. Each country kit contains content packs for InfraWorks specific to that geopolitical region. Content such as 3D models, textures, materials, parametric components, and other styles are included in a country kit.

ArcGIS with Esri Geospatial Cloud (Add'l Service): https://autode.sk/2Zo87MI (Autodesk Knowledge Network)

Autodesk Connector for ArcGIS: You can bring ArcGIS datasets into your InfraWorks models, save back edited content, and publish and export InfraWorks data for use in ArcGIS.
